Education

Simpson (York) Ltd was formed in 1965 and the current management team completed a successful management buy out in 1994. Since then we have consistently grown and expanded our presence in the UK construction and shopfitting industries to our level of turnover for 2008 at circa £94m.

Our Chairman & Chief Executive, Ron Gatenby and Managing Director, Ian Hildreth are supported by a highly motivated team of over 60 office based staff and more than 115 operatives.

We are proud of our team and of their success on each contract we receive. Our staff are the basis of our success and it is through their commitment and enthusiasm that we maintain our respected position in the industry.
