

## Careers

Should there be an upturn in the current market conditions, SIMPSON may well be looking to increase our levels of Site Supervision early 2011.

We would welcome applications from suitably qualified individuals for the following positions:

- Project Manager
- Site Manager

We ask that any interested individuals have Main Contractor experience in Shopfitting and/or Construction and should be highly motivated professionals looking for a new and challenging career.

SIMPSON do create opportunities for graduate training, however in the current economical climate our graduate training programme is on hold.

We train apprentices in traditional construction trades, investing in modern apprenticeship recruitment in the following skills:

Joinery

Bricklaying

Plastering

General Operative

Please check back later in the year for details of our apprentice programme.

We acknowledge these life-time talents which are an invaluable and important craft, and our trainees receive a full indentured training which enhances the skills of the site and workshop teams.

If you require further details or clarification, please contact Simpson at the address below.
